

PLUTUS

Accounts on the Cloud

Specially designed for the Chartered Accountants

CURRENT CHALLENGES

Software to ease the audit and returns filing process by the CA

Accounting software for the Clients of a CA Firm with the data for each client available/ accessible by the CA

■ **Clients do not provide Sales data in required formats**

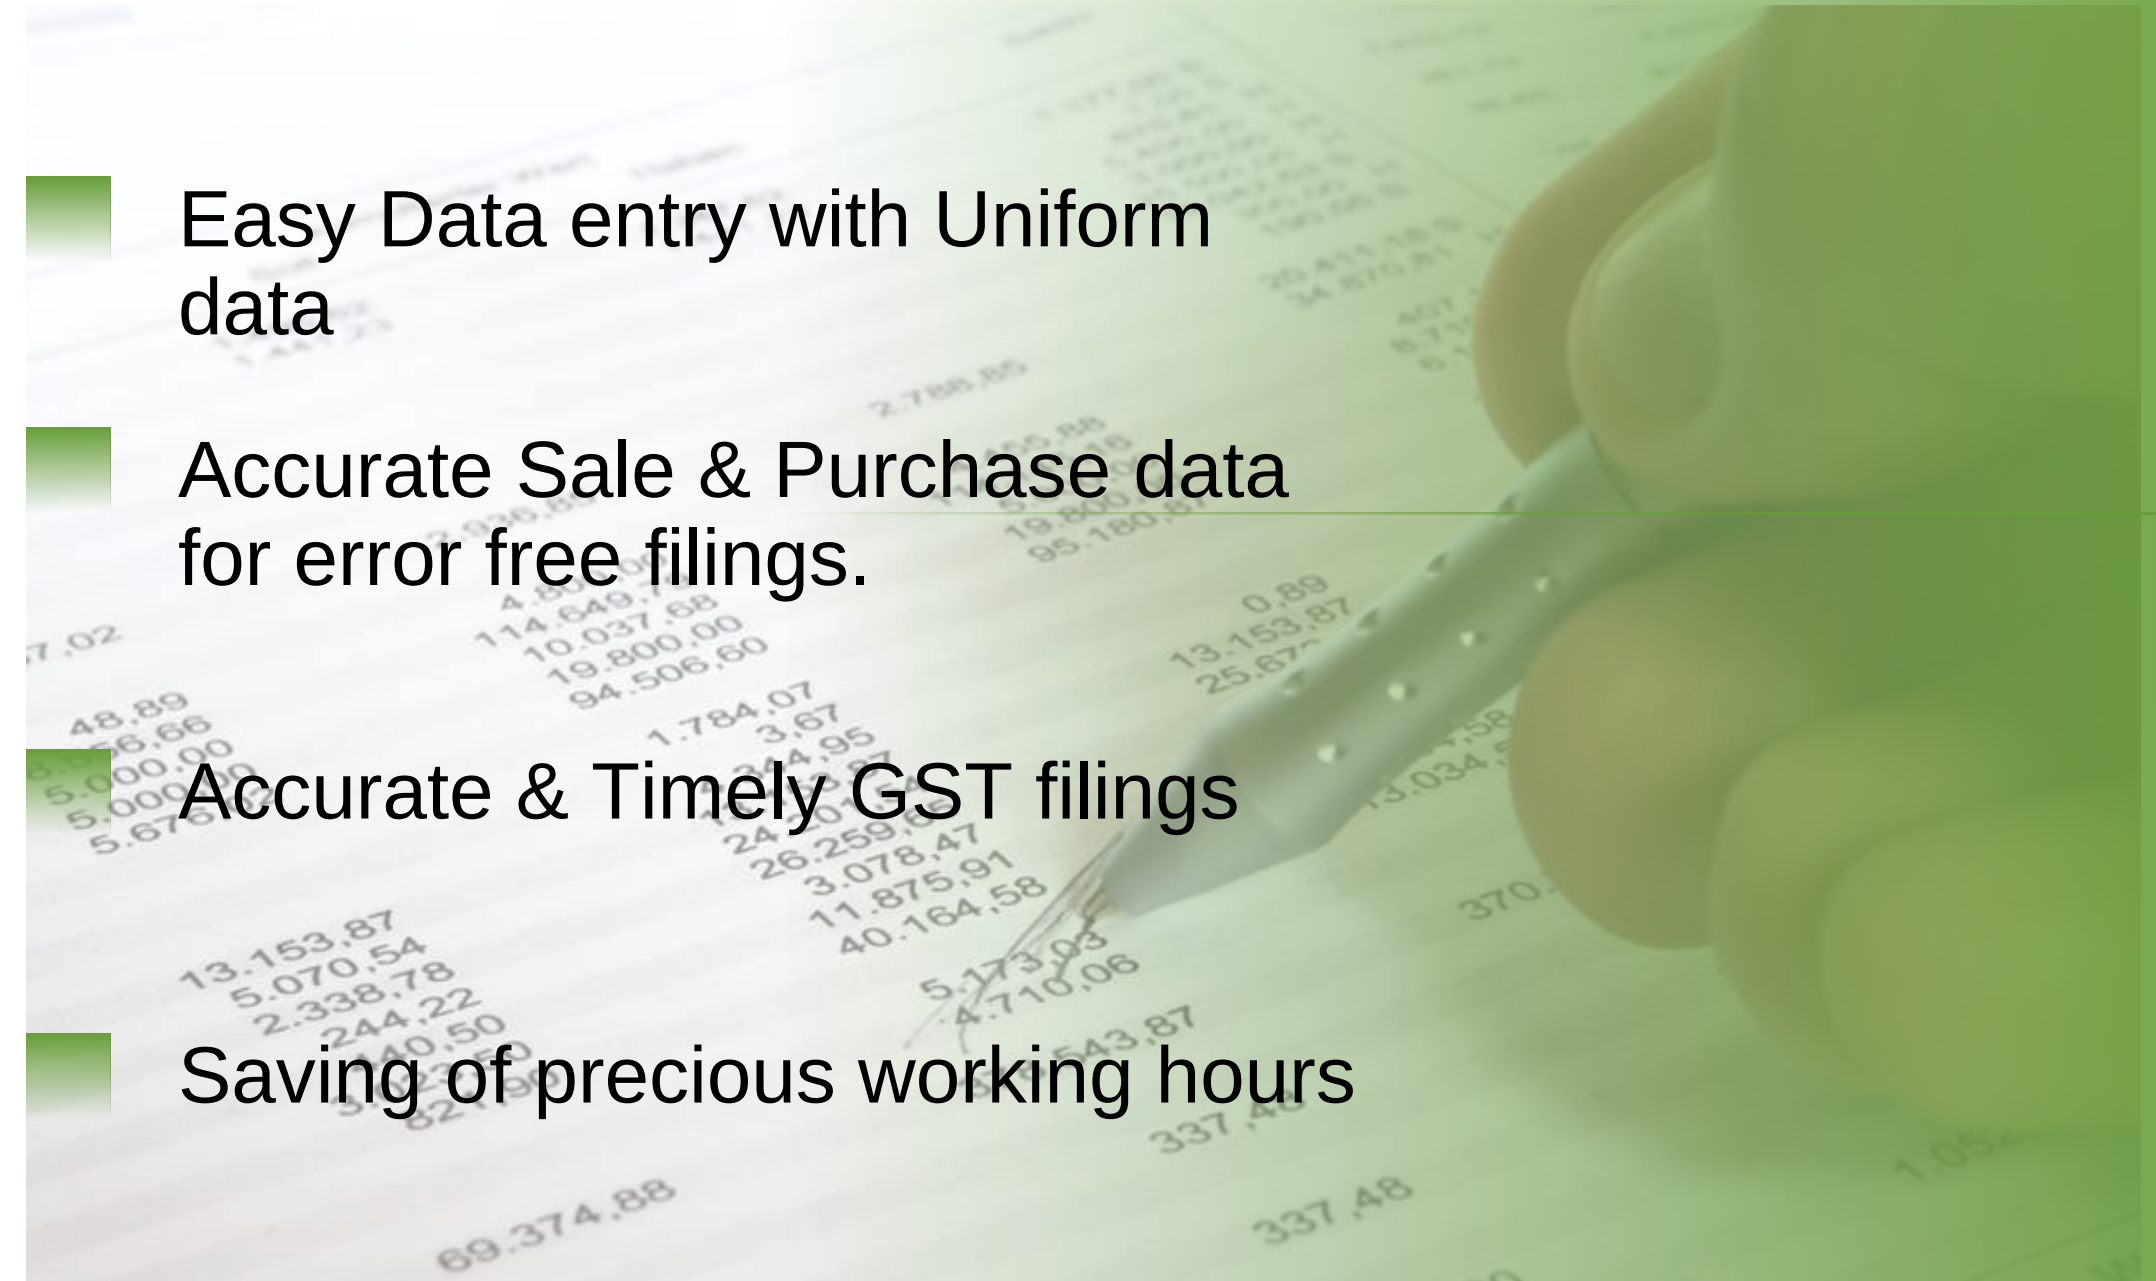

■ **Duplication of work by CA firms by re-entering same data in required formats.**

■ **Time consuming and redundant data entry job, which can be utilized to do more productive work.**

■ **Deadlines to file GST for large number of clients gets affected with possibilities of error in filings.**

How PLUTUS helps?

- Online Portal
- Work flow based Approval before sharing data with CA
- Auto GST calculation with HSN Code
- Integration with Tally
